

Date: 25 August 2022

My name is USHA, I reside in a town called Vellore which is in Tamilnadu district, India. I am a graduate in Nursing. I got 2 kids and I cannot see myself working full time as a registered Nurse while raising my family.

So, I plan, that I can take care of them at all times. I will be at home attending to my family's needs while earning at the same time.

It is a great opportunity to explain my experience in this platform. Thank you very much for the support so far, and most importantly the opportunity to work in **ONLINE KAM**.

My experience with ONLINE KAM

I have joined **Online Kam**, 3 months back in student package programme as I was desperately searching for WFH. I came to know about your company from WhatsApp ad. *The staff are really good they trained me very well.* I have gained so much knowledge and understanding about the work process.

ONLINE KAM is an awesome place to work. The management is good, and an unlimited potential for growth and prosperity. We can earn easily from Online Kam company and also be financially independent just by **Clicks** being in my comfort zone.

I also highly recommended many of my friends to join to this job. Working for this company is the turning point of my life. I trust this company and I should be thankful always. Thank you.

Ms. USHA
